Y—4 Ply Rating, 2 Ply—There is no industry-wide definition of ply rating. 2 ply tire, 4 ply rating means this 2 ply tire has the same load carrying capacity as our current or most recent 4 ply tire of the same size.

F—Available Factory Shipment Only.

†—Special construction for Shelby Mustang GT350 (SPW 350 WL NY TL) 4-ply.

▲—Limited availability E70-14 RS & WS, D70-14 WS, G70-14 WS, F70-15 WS and G70-14 WS during 1st quarter 1967.

NOTE: ON ANY CHANGEOVER, REMEMBER THESE POINTS:

1. Be sure there is ample car body and fender clearance around the tires when the tires are supporting the full weight of the vehicle.
2. Be sure that there are no steering hindrances. Test drive the car in a tight circle.
3. For best results, be sure that the car is in proper alignment, and that the wheels are balanced.
4. ALWAYS mount Wide Tread tires in pairs on the same axle. For best results, SPEEDWAY WIDE Ω TREAD tires should be mounted on all four wheels.
5. Wheel changes are not required when replacing conventional tires.
